NEIL DARYL D. BENITEZ

09398011218 | neildaryldbenitez@outlook.com | City of San Pedro, Laguna

PROFESSIONAL EXPERIENCE

Network Engineer
HTech Corporation **October 6, 2025 – Present, Muntinlupa City**

- **Provided 24/7 proactive monitoring and resolution of internet and network issues**, including **packet loss**, **high latency**, and **connectivity loss**; performed **troubleshooting**, **traffic analysis**, **ICMP testing**, and **radio channel adjustments**; also skilled in **OSPF verification**, **PtMP network tracing**, and **implementing bandwidth upgrades, downgrades, or disconnections**; handled clients including **DICT Free WiFi (CALABARZON)**, **PNP**, **BPOs**, **hospitals**, **hotels**, **universities**, **factories**, and **corporate establishments.**
- **Conducted site assessments and deployed network infrastructure for new clients**, designing network layouts and installing **PtP and PtMP radios on towers and poles, wireless access points, structured cabling, PoE setups, and UPS systems**; **resolved network issues for existing clients on-site**, performing **radio re-alignment, UTP cable replacement/crimping, replacement of faulty PoE devices, and other interventions** to maintain high-performance connectivity**.**
- **Configured and managed Fortinet firewalls**, including **adding/removing clients, IP/MAC access control, and enabling/disabling VPN connections**; ensured **secure client access**, **coordinated changes with clients**, and **documented all monitoring, troubleshooting, and on-site interventions in the ticketing system.**

ATM Field Engineer
One Point Contact Inc. **February 20, 2024 – May 22, 2025, Pasig City**

- **Configured and tested ATM network connectivity on-site**, including IP addressing, gateway/DNS setup, and Telnet/Ping diagnostics to verify stable communication with host servers for major clients such as **BDO, Metrobank, PS Bank, PNB, EastWest, PBCOM, Veterans Bank, and 7-Eleven/7Banks**.
- **Performed on-site network troubleshooting**, resolving LAN/WAN connectivity issues and interface communication errors while coordinating with bank IT and FIS teams for backend validation and patch deployment**.**
- **Performed preventive maintenance and device/hardware troubleshooting** on ATM parts and equipment—including card readers, printers, PC cores, power modules, and other devices—to minimize downtime and ensure continuous operational reliability**.**

Network Support Intern
The Seashore Beach Club, Inc. **April 11, 2023 – June 30, 2023, Muntinlupa City**

- **Deployed and configured a resort-wide Wi-Fi network**, including a **Point-to-Point (PtP) wireless bridge** from the main office router to **Tenda access points**. **Implemented time-based guest access with automatic session expiration** and conducted **performance testing** to ensure stable and reliable connectivity**.**
- **Installed and organized telecommunications and network infrastructure**, including **CCTV UTP cabling**, **structured telephone line connections**, and performed **system validation testing** to ensure proper operation of communication and monitoring systems**.**

PROFESSIONAL SKILLS

- Network monitoring & proactive troubleshooting (ICMP testing, OSPF tracing and verification)
- Bandwidth management & traffic analysis
- Router and wireless access point configuration (Tenda, TP-Link, Omada)
- Point-to-Point (PtP) & Point-to-Multipoint (PtMP) radio deployment and alignment
- LAN/UTP cabling, structured cabling, cable crimping & termination
- PoE setup, UPS installation, and on-site network device replacement
- Fortinet firewall configuration, IP/MAC access control & VPN management
- Site assessment & network deployment
- Ticketing system documentation and incident reporting

EDUCATION

Bachelor of Science in Computer Engineering
(Best in OJT Awardee, Deportment Awardee, & Loyalty Awardee)
Lyceum of Alabang – Muntinlupa City | July 31, 2023

CERTIFICATIONS

Cisco Networking Academy: Networking Basics
Certificate of Course Completion
November 25, 2025
