NEIL DARYL D. BENITEZ

09398011218 | neildaryldbenitez@outlook.com | City of San Pedro, Laguna

PROFESSIONAL EXPERIENCE

NOC / Network Engineer
HTech Corporation **October 6, 2025 – Present, Muntinlupa City**

- **24/7 Network Monitoring & Proactive Troubleshooting** – Monitored client networks in real-time, identified and resolved **packet loss, high latency, connectivity loss/no internet, and bandwidth issues**; performed **traffic analysis and ping tests**; implemented **bandwidth upgrades, downgrades, or disconnections** based on client subscriptions or special orders from sales; documented all incidents, maintenance, and resolutions in the **ticketing system**; handled diverse clients including **DICT Free WiFi (CALABARZON), PNP, BPOs, hotels, hospitals, universities, schools, factories, and corporate establishments**.
- **Site Assessment & Network Deployment** – Conducted **site surveys** for new clients and designed **network layouts**; **installed point-to-point (PtP) and point-to-multipoint (PtMP) radios on cell towers and poles**, along with **wireless access points**, **structured cabling**, **PoE setups**, and **UPS systems**; performed **radio alignment** and **re-channeling** to ensure stable, high-performance **connectivity**.
- **Firewall & Client Access Management** – Managed **Fortinet firewalls**, including **IP/MAC client access control** and **VPN configuration**; enabled or disabled VPN connections for clients as needed; ensured secure network access and coordinated with clients for onboarding and network adjustments.

Field Engineer / ATM Technician
One Point Contact Inc. **February 20, 2024 – May 22, 2025, Pasig City**

- **On-Site Software, Configuration & Client Satisfaction** – Performed **HDD/software upgrades** and **IP/network configuration** to resolve connectivity issues; acted as **solo field engineer responding to on-call service requests**, ensuring **high client satisfaction** through timely and efficient service.
- **Technical Diagnosis & Repairs** – Diagnosed and resolved hardware/software issues such as **no power, no display, card reader, printer, cash dispensing, connectivity failures**; replaced faulty parts and components including **card readers, pick modules, printers, LCDs, PC cores**; rewired or upgraded devices as needed, enhancing the **operational lifespan and long-term reliability of ATMs**.
- **ATM Servicing & Preventive Maintenance** – Performed **on-site servicing** and quarterly preventive maintenance for ATMs of multiple banks including **BDO, Metrobank, PS Bank, PNB, EastWest Bank, PBCOM, Veterans Bank, 7-Eleven/7Banks** in the Laguna area; cleaned sensors, replaced consumables, and ensured overall **system reliability**.

IT Support Intern
The Seashore Beach Club, Inc. **April 11, 2023 – June 30, 2023, Muntinlupa City**

- **Wi-Fi Network Deployment (Point-to-Point Setup)** – Configured and deployed a **Point-to-Point (PtP) wireless bridge** from the main office router to **Tenda access points** to extend network coverage across resort areas; implemented **time-based guest Wi-Fi access** with automatic session expiration and conducted **network performance testing**.
- **CCTV & Telecommunication Infrastructure** – Installed **CCTV cabling infrastructure (UTP and molding)**, organized and restored **room-to-lobby telephone line connections** and performed **system validation testing** prior to operational handover.
- **Front-End Website Development –** Designed and developed the resort's **responsive website** using **HTML, CSS, JavaScript, Bootstrap**, showcasing rooms, facilities, location, and activities to enhance online presence and user experience.

PROFESSIONAL SKILLS

- Network monitoring & proactive troubleshooting
- Bandwidth management & traffic analysis
- Cisco, Meraki, UniFi router configuration
- Tenda, TP-Link, Omada controller configuration
- Wireless access point installation & configuration
- Point-to-Point (PtP) & Point-to-Multipoint (PtMP) radio deployment & configuration
- LAN / UTP cabling, structured cabling, cable crimping & termination
- PoE setups, UPS installation, media converter configuration, switch installation & configuration
- Radio re-alignment & re-channeling
- Fortinet firewall configuration, IP/MAC access control & VPN management
- Site Assessment & Network Deployment
- Ticketing System documentation, maintenance notice, and incident reporting
- Basic Web Development**:** HTML, PHP, CSS, JavaScript, SQL, Bootstrap

EDUCATION

Bachelor of Science in Computer Engineering
(Best in OJT Awardee, Deportment Awardee, & Loyalty Awardee)
Lyceum of Alabang – Muntinlupa City | July 31, 2023

CERTIFICATIONS

Cisco Networking Academy: Networking Basics
Certificate of Course Completion
November 25, 2025
