NEIL DARYL D. BENITEZ

09398011218 | neildaryldbenitez@outlook.com | City of San Pedro, Laguna

PROFESSIONAL EXPERIENCE

Network Engineer
HTech Corporation **October 6, 2025 – Present, Muntinlupa City**

- **Provided 24/7 proactive monitoring and resolution of internet and network issues**, including **packet loss**, **high latency**, and **connectivity loss**; performed **troubleshooting**, **traffic analysis**, **ICMP testing**, and **radio channel adjustments**; also skilled in **OSPF verification**, **PtMP network tracing**, and **implementing bandwidth upgrades, downgrades, or disconnections**; handled clients including **DICT Free WiFi (CALABARZON)**, **PNP**, **BPOs**, **hospitals**, **hotels**, **universities**, **factories**, and **corporate establishments.**
- **Conducted site assessments and deployed network infrastructure for new clients**, designing network layouts and installing **PtP and PtMP radios on towers and poles, wireless access points, structured cabling, PoE setups, and UPS systems**; **resolved network issues for existing clients on-site**, performing **radio re-alignment, UTP cable replacement/crimping, replacement of faulty PoE devices, and other interventions** to maintain high-performance connectivity**.**
- **Configured and managed Fortinet firewalls**, including **adding/removing clients, IP/MAC access control, and enabling/disabling VPN connections**; ensured **secure client access**, **coordinated changes with clients**, and **documented all monitoring, troubleshooting, and on-site interventions in the ticketing system.**

ATM Field Engineer
One Point Contact Inc. **February 20, 2024 – May 22, 2025, Pasig City**

- **Performed on-site IP and network configuration for ATMs**, including **inputting network parameters and performing telnet/ping tests to verify connectivity**; **directly coordinated with IT and FIS teams of client banks**, who executed **full patch downloads and network issue resolution**; ensured continuous ATM operation and client satisfaction for banks including **BDO, Metrobank, PS Bank, PNB, EastWest Bank, PBCOM, Veterans Bank, and 7-Eleven/7Banks.**
- **Executed on-site network troubleshooting and corrective actions**, resolving connectivity anomalies, interface communication errors, and other network-related issues to maintain **stable, high-performance ATM operation.**
- **Diagnosed hardware and performed preventive maintenance**, including card reader, printer, LCD, PC core, and power modules; replaced faulty components, rewired/upgraded devices, and conducted regular system checks to maintain **network stability and long-term reliability.**

IT Support Intern
The Seashore Beach Club, Inc. **April 11, 2023 – June 30, 2023, Muntinlupa City**

- **Deployed and configured resort-wide Wi-Fi network**, including **Point-to-Point (PtP) wireless bridge from main office router to Tenda access points**, implementing **time-based guest access with automatic session expiration** and performing **network performance testing** to ensure stable connectivity across resort areas**.**
- **Installed and organized telecommunication and network infrastructure**, including **CCTV UTP cabling, structured telephone line connections, and system validation testing**, ensuring proper operation of communication and monitoring systems**.**
- **Developed the resort's responsive website** using HTML, CSS, JavaScript, and Bootstrap to showcase rooms, facilities, and activities, improving the resort's **online visibility and user experience.**

PROFESSIONAL SKILLS

- Network monitoring & proactive troubleshooting (ICMP testing, OSPF tracing and verification)
- Bandwidth management & traffic analysis
- Router and wireless access point configuration (Tenda, TP-Link, Omada)
- Point-to-Point (PtP) & Point-to-Multipoint (PtMP) radio deployment and alignment
- LAN/UTP cabling, structured cabling, cable crimping & termination
- PoE setup, UPS installation, and on-site network device replacement
- Fortinet firewall configuration, IP/MAC access control & VPN management
- Site assessment & network deployment
- Ticketing system documentation and incident reporting
- Basic web development: HTML, CSS, JavaScript, Bootstrap

EDUCATION

Bachelor of Science in Computer Engineering
(Best in OJT Awardee, Deportment Awardee, & Loyalty Awardee)
Lyceum of Alabang – Muntinlupa City | July 31, 2023

CERTIFICATIONS

Cisco Networking Academy: Networking Basics
Certificate of Course Completion
November 25, 2025
